CONFERENCES AND SEMINARS

Iran

Sustainable Structural Design and Green Integration in Architecture

 "Sustainable Structural Design and Green Integration in Architecture" University of Tehran, Department of Architecture — Iran, 2024 Delivered a seminar on the integration of sustainable structural engineering strategies with green architectural elements. Reviewed key approaches from the literature—including material optimization, hybrid vibration control systems, and lightweight design—and expanded on the role of green infrastructure (green roofs, vertical gardens, biophilic design) in enhancing environmental performance, energy efficiency, and occupant well-being.

Urban Redevelopment and Regeneration

 "Urban Regeneration and Planning Tools in Peripheral Areas"

Location: University of Tehran, Department of Architecture

Date: 2023

Presented a seminar on urban regeneration strategies and planning tools applied to peripheral and marginalized urban areas. The presentation examined regeneration interventions with direct physical transformation impacts on the urban fabric, including infrastructure upgrading, public space reactivation, and adaptive reuse of underutilized sites. Discussed planning frameworks and policy tools used to guide sustainable redevelopment, balancing social, economic, and environmental objectives in peripheral urban contexts.
